

PROGRAM DIRECTOR OPERATIONAL SEARCH FOR MH370

Peter Foley has held the position of Program Director Operational Search for MH370 since May 2014. He is responsible for all the ATSB's operational search activities for missing Malaysia Airlines flight MH370.

Mr Foley joined the ATSB in 1999 after a career at sea as a marine engineer with Australian shipping companies, including ANL Ltd, the Commonwealth shipping line. Since joining the ATSB he has held a number of roles most recently as General Manager Surface Safety Investigations responsible for marine and rail safety investigations, the ATSB's work on the reforms to the National Transport Regulatory framework, and the ATSB's international programs. He has been responsible for performing and managing a large number of marine and rail investigations, many of them significant, and has represented the ATSB and Australia at many international meetings and conferences.

Mr Foley holds professional qualifications in marine engineering and transport safety investigation, degrees in both marine and mechanical engineering and a Graduate Diploma in Business Management.
